

Outdoor Checklists

Create a checklist for things you can find in the garden.

You can do this by drawing the items you want your child to find or writing the words.

Some ideas for your checklists:

How many of these objects can you find in the garden?

Can you find these objects in the garden?	(Tick)
Daisy	
Brick	
Bicycle	
Chair	

You can also use a tally chart to total up how many items you found:

How many of these objects can you find in the garden?	(Tally)	Total
Daisies	///	3
Bricks	//	2
Bicycles	/	1
Chairs	////	4

We had a lot of daisies in our garden which made it a bit tricky to count them all so we put a hula hoop over a section in our garden and counted the daisies in the hoop. You can do this for smaller objects too.

This, of course, can be done inside your house or you could take your clipboard out with you when you go for a walk. Here are some things you could find on your walk:

- Signposts
- Road name signs
- Dogs
- Cats
- Cars
- Street lights
- Bumble bees

You could also search for things that require a bit more of a thoughtful input:

Find 5 things that are: Blue / big / circular / smell nice!
